

Individual Evidence Preservation

For people facing a digital attack no one will take seriously.

This form is for individuals. If you are in immediate physical danger, call 911 first. If you are facing tech-enabled abuse or stalking, the resources at the bottom of this form specialize in exactly that and will not dismiss you. AuditTrace helps you preserve and organize what you already have into a reviewable evidence package. We do not diagnose, confirm, or accuse — we make your evidence clear enough for a professional to act on.

Send scope, not secrets.

Do not write passwords, credentials, recovery codes, payment data, or regulated records on this form. Describe systems and sources in general terms only. This form is for scoping, not for transmitting secrets.

Your name (or initials)

Email we can reach you at safely

What devices or accounts are involved? (general terms — e.g. iPhone, home Wi-Fi, email)

In your own words, what has been happening?

What evidence do you already have? (e.g. screenshots, metadata, logs, recordings, dates)

Who have you already contacted? (e.g. police, FBI, Apple, carrier, lawyer)

- I have not written any passwords or account credentials on this form.
- The devices and accounts described are my own, or I am legally authorized.

If you need help right now

- Immediate physical danger: call 911 (US).
- Tech-enabled abuse or stalking: National Network to End Domestic Violence — Safety Net (nnedv.org/safetynet)
- Stalkerware on a device: Coalition Against Stalkerware (stopstalkerware.org)
- 24/7 confidential support: National Domestic Violence Hotline 1-800-799-7233

When complete: save this PDF and email it to contact@audittracelabs.com

We reply within one business day with next steps and a fixed-scope quote. No obligation. AuditTrace does not surveil, score behavior, or access third-p
